The Board of Directors' responsibility for internal controls are regulated by the Companies Act, the Annual Accounts Act – which includes requirements that the Corporate Governance Report must contain disclosures concerning the principal features of Camurus' internal control and risk management systems in connection with the annual financial reporting and the preparation of the consolidated financial statements – and the Code. The Board of Directors is to ensure that Camurus has appropriate internal controls and formalized procedures to ensure its compliance with established policies for financial reporting and internal controls, and the existence of appropriate systems for the monitoring and control of the company's activities and the risks associated with the company and its operations.

Camurus applies COSO's framework for the internal control of financial reporting. The procedures for internal controls on financial reporting were designed with the aim of ensuring reliable overall financial reporting and external reporting in accordance with IFRS, applicable laws and

regulations, and other requirements applicable to companies listed on Nasdaq Stockholm. This work involves the Board of Directors, group management and other employees.

Control environment

The Board of Directors has established instructions and governing documents with the aim of regulating the CEO's and the Board of Directors' roles and responsibilities. The manner in which the Board of Directors monitors and assures the quality of internal controls is documented in the Board of Directors' rules of procedure and Camurus' financial policy, as well as the policy for internal control, where the Board of Directors has established a number of fundamental guidelines of significance to the work with internal control. These guidelines include the regular control and follow-up of outcomes in comparison with expectations and preceding years, as well as supervision of the accounting policies applied by Camurus. The responsibility for maintaining an effective control environment and the ongoing work on risk assessment and internal control over the financial reporting is delegated to the CEO. However, the Board of Directors has ultimate responsibility.

Group management reports regularly to the Board of Directors in accordance with established procedures. The financial reporting control environment collectively comprises various responsibilities and authorities, instructions, guidelines, manuals and policies, in combination with laws and regulations.

Based on an efficient control environment and external reviews by auditors, the Board of Directors has deemed that there are no special circumstances in Camurus' operations or other circumstances to warrant the establishment of an internal-audit function.

Risk assessment

Camurus performs continuous risk assessments to identify risks pertaining to financial reporting, as well as risks associated with the company's operations. These risks include inaccurate reporting as well as impropriety and fraud. Risk management is incorporated in each process and various methods are used to evaluate, identify and curtail risks, and to ensure that the risks to which Camurus is exposed are managed in line with the set policies, instructions and monitoring procedures.

For a description of Camurus' operational risks, see the Director's Report, pages 78-80 and for the financial risks, Note 3 Financial Risk Management in Camurus Annual Report 2022.

Control activities

The design of the control activities is of particular importance to Camurus' work to prevent and identify risks and deficiencies in the financial reporting. The control structure comprises defined roles in the organization supporting an efficient division of responsibilities for specified control activities, including monitoring of access control within IT systems, ERP system and authorization and approval limits. The continuous analyses carried out on the financial reporting are crucial to ensure that the financial reports do not include any material errors.

Information and communication

Camurus has information and communication procedures aimed at promoting completeness and accuracy in financial reporting. Policies, guidelines and internal instructions about financial reporting are available in digital and printed form.

For external disclosure of information, guidelines have been designed with the aim of ensuring that Camurus meets the requirements covering the disclosure of accurate information to the market.

Monitoring, evaluation and reporting

The Board of Directors obtains regularly updated financial information about Camurus' development between Board meetings. The group's financial position, strategies and capital expenditures are discussed at each Board meeting.

The Board is also responsible for monitoring the internal control and monitoring that reporting to the Board works satisfactorily. This work entails ensuring that measures are taken to manage any shortcomings, as well as following-up on any proposed measures highlighted in connection with external reviews. The company performs an annual self-assessment of its work with risk management and internal controls. This process includes a review of the manner, in which established procedures and guidelines are applied. The Board of Directors receives information about important conclusions from this annual assessment process, and about proposed actions, if any, with regard to the company's internal control environment. In addition, the external auditors report on a regular basis to the Board of Directors, partly through the Audit Committee, partly to the Board of Directors in its entirety

EXTERNAL AUDIT

The AGM appoints external auditors for a period of one year at a time. In accordance with the audit plan established in consultation with the Board's Audit Committee, the auditor examines the Annual Report and the accounts, as well as the Board of Directors' and CEO's fulfilment of their fiduciary duties and responsibilities. In connection with the review, the auditor reports his findings to group Management for discussion and subsequently to the Board of Directors through the Audit Committee. Following completion of the audit, the Audit Committee is informed.

At least once a year, the auditor reports his observations directly to the Board of Directors without the presence of Camurus' CEO and CFO. The auditor also participates at the AGM, where he presents a summary of his audit and his recommendations in the audit report.
